

## LABAID UNIVERSAL VIRAL COLLECTION KIT

### PRODUCT DESCRIPTION

**Labaid Universal Viral Collection Kit** is a viral transport system designed to collect and transport viruses, chlamydiae, mycoplasmas and ureaplasmas at ambient temperature. The kit maintains viability of organisms while inhibiting antimicrobial contaminants and promoting safety. The viral collection kit combines a flexible minitip collection swab and 10 mL vial for collection. It is one of the only systems that may be stored and transported at 0°C to 25°C—all in one formulation.

- Antibiotics inhibit bacteria and fungal flora
- Maintain microbial viability for safe transport
- Large 3 mL media fill volume allows for multiple tests on the same specimen

**CAT: BVTK-010**

1000 kits/case  
100 tubes/bag, 10 bags/case  
100 nasal swabs/bag, 10 bags/case

### PRODUCT FEATURES

**SAFE TRANSPORT**  
Microbial viability for safe transport

**PRESERVE SAMPLES**  
Inhibit bacteria and fungal flora in samples

**VERSATILE**  
Multi-purpose usage with design variations

**LEADING QUALITY**  
High density materials and stringent QC standards

### COMPANY INTRODUCTION

Biomed Resource, Inc., was founded in 2001 to supply quality products for biotechnology and healthcare industries. As a manufacturer and wholesaler, we offer an extensive array of products, including: medical and laboratory plastic wares, clean room supplies, and hospital disposables. With factory operations overseas and warehouse headquarters in California, we have strategic locations to minimize delivery time and provide an unparalleled level of convenience for our customers. All our products are FDA registered and well-proven in the market.
